

# UNITY™ **NEW PRODUCT** SLEEVELESS VACUUM.

Introducing the only advanced vacuum system designed for use with Össur Seal-In® and Flex-Foot® technology.\*

- Sleeveless system preserves unrestricted range-of-motion.
- Distal vacuum provides volume stabilization where it is needed most.
- Pump acts independently of shock module for max energy efficiency.
- Quick and easy to achieve and release vacuum.
- Weighs less than 5 ounces.
- Currently compatible with Re-Flex feet and Seal-In liners (other Flex-Foot options coming soon).

Contact an O&P Lab Prosthetist for more information on this product. Ph. (314) 968-8555.

\* Unity is only recommended for use with sleeveless Seal-In technology.
